The Most Versatile Barbeque Ever Made!

2019 Catalog

THE MOST VERSATILE BARBEQUE GRILL EVER MADE!

AN OVEN, STOVE, BBQ AND SMOKER

The Panda Grill allows you to smoke, bake, roast, BBQ and sear. Easily adjustable air flow provides precise temperature control, and the additional racks allow you to cook with both direct and indirect heat at the same time. You can add charcoal to maintain the perfect temperature for slow roasting and savory smoking. With so much control and versatility, you can literally cook anything on this incredible grill.

UNMISTAKABLE CHARCOAL TASTE

There's nothing like a sizzling mouth-watering steak infused with the flavor of charcoal. That unmistakable taste is why ceramic grills are fast becoming the number one choice for the backyard chef. Ready to cook in only 15 minutes, without starter fluid, your charcoal burns cleaner and longer, allowing more of that delicious natural charcoal taste come through.

YOUR OWN BACKYARD PIZZA OVEN

Treat your friends and family to the unique flavor of an authentic wood fired pizza – made right in your own backyard! Pizzas can be baked on our ceramic pizza stone which can also be used to bake fresh bread! Panda Grill takes the 'summer cookout' to a whole new level where the only limit is your imagination - and your appetite! Create your own gourmet masterpiece faster than any delivery!

The Panda Grill allows you precise temperature control up to 750 degrees, and will maintain that heat for hours! You can quick-sear steaks, slow roast ribs, smoke meats, grill fish, even bake pizza! The Panda Grill will make you the master of the backyard barbeque and the envy of your friends!

QUESTIONS & ANSWERS ABOUT YOUR PANDA GRILL

Q: Why choose a ceramic grill?

A: A ceramic grill is the ultimate way to grill, smoke, sear or bake. It is better built, more durable and more versatile than cheap metal grills, and gives you better heat control than a gas grill. The ceramic body holds heat, even when the air outside is cold, and it can hold that temperature for hours.

Q: Why choose Panda Grill?

A: In a word; VALUE! Panda Grills are manufactured to the industry's highest standards, using only the best materials and workmanship, backed by a lifetime technical guarantee. We also provide all of the tools and accessories you'll need to get set-up and grilling in only 15 minutes! Above all, we want you to experience the pleasure of healthier, more delicious foods cooked at home. So we make our grills extremely affordable, in a range of sizes and colors to fit any lifestyle or budget.

Q: How long will my Panda Grill last?

A: We expect the Panda Grill to be the last grill you'll ever buy. We know you'll want to use it several times a week, year-round. We know your grill will be outside through the hottest summers and the coldest winters, and must always look great, fire-up and perform perfectly - every time. So we build them with that in mind, with quality and durability as our top priorities. Your Panda Grill will last a lifetime.

Q: Can I use regular briquettes?

A: Regular briquettes can be used, but we recommend lump charcoal for superior performance and flavor. You can also use your favorite woods for smoking to add extra flavor.

Q: Why do you include an electric starter? Can I just use fluid?

A: NEVER use lighter fluids. These chemicals are unhealthy, they ruin the taste of food and damage the interior of all grills, regardless of material. That's why we INCLUDE an electric starter - so you'll never have to handle dangerous and toxic starter fluids again.

Q: Is it hard to clean?

A: A quick wipe with a damp cloth is all it takes to keep the ceramic finish glossy and beautiful. Ash is easily swept out of the bottom air vent with no need to lift or dismantle the grill. We include an ash hook specially designed for this purpose. The grates are stainless steel for easy cleaning, and will never rust or flake.

Q: What about service after the sale?

A: We offer the best warranty in the business. The stainless steel, cast iron, ceramics and glaze will last a lifetime. Other parts like the lid gasket are designed to absorb wear and tear, and we ship replacement parts the same day. See all of the details on our website, www.PandaGrill.com.

The Most Versatile Barbeque Grill Ever Made!

Whether you want to grill, smoke or slow-roast meats, or bake potatoes, bread or even pizza, our ceramic grill is the perfect companion for the outdoor chef. Use your favorite lump charcoal, briquette charcoal and smoking woods for the ultimate flavor experience.

23½” Ceramic BBQ Grill

Designed especially for large parties and serious grill masters, the 23½” Panda Grill is large enough to grill 24 burgers, 14 racks of ribs or even roast 2 whole turkeys! It’s large enough to cook an entire Thanksgiving Day dinner on this grill, with all of the juiciness and mouth-watering flavor that makes outdoor grilling America’s favorite way to cook!

Whether you want to grill, smoke or slow-roast meats, or bake potatoes, bread or even pizza, our ceramic grill is the perfect companion for the outdoor chef. Panda Grill is the best built and most versatile ceramic grill ever made. This grill can accommodate lump charcoal, briquette charcoal and smoking woods for the ultimate flavor experience.

The 23½” grill provides a huge 2-level cooking area that can easily handle enough food for a large family - or a party of up to 20 people! Panda Grill makes a handsome centerpiece for all your backyard entertaining, and makes you the master of backyard grilling!

Superior Kamado Style Grilling

“Kamado” is the Japanese word for “stove”. Traditionally, these were ceramic pots for burning coal or wood. Ceramics have a natural ability to hold and distribute heat better than any other material. Ceramic grills made their way to America in the 1950’s, and have been a favorite of serious grill chefs ever since.

Panda Grill combines the time-tested qualities of a traditional kamado with 21st Century improvements to fit today’s more active and mobile lifestyles. Our ceramic body is lighter and tougher, with a beautiful high-gloss glaze that withstands the most extreme weather. The support legs and hardware are made of wrought iron with a durable powder-coat finish to stay sturdy and beautiful for years to come.

The handles are made of bamboo, known world-wide for its unmatched durability and resilience. And, we include the ‘extras’ like stainless steel racks, electric coal starter and a baking stone that all combine to make your new Panda Grill the most complete and versatile barbeque grill you’ve ever used!

1. Superior heat-retention, up to 750 degrees.
2. Amazing versatility: grill, smoke, bake, and slow roast.
3. Large cooking area: dual stainless steel racks and large baking stone allow multiple temperature zones for grilling, baking and roasting - all at the same time.
4. Tighter air seals and more precise temperature control help to lock in flavors and juices for perfect results - every time.
5. Electric starter provides fast ignition without the use of toxic starter fluids. Food cooks faster, tastes better and is healthier for you and your family.
